

Z INFO SOLUTION
PRIVATE LIMITED

BUSINESS PROPOSAL

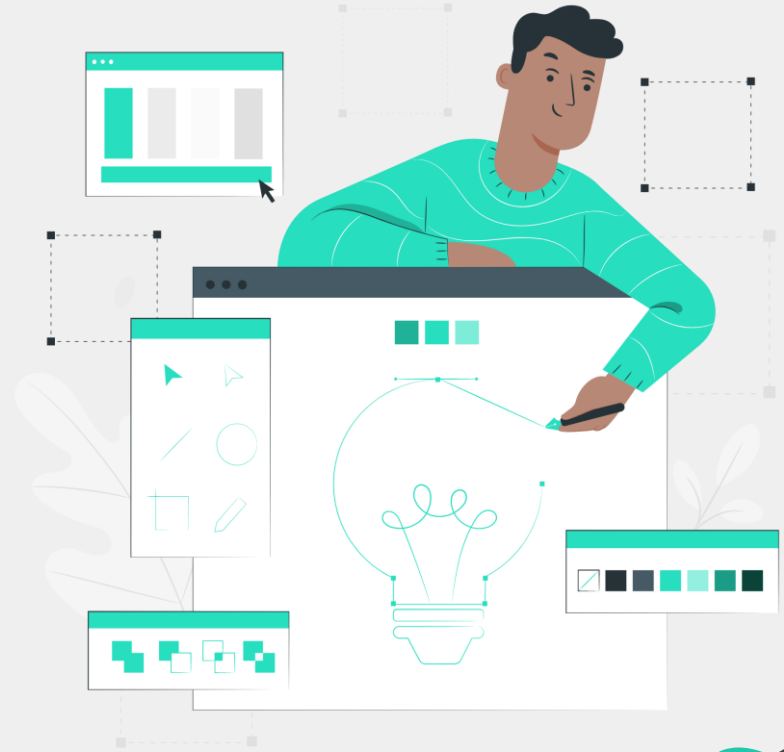

For Healthcare Corporations

OUR COMPANY

Started in 2010 by Tanveer Khalid, after leading multiple global healthcare projects for a Multi-National Corporation for 12 years, Z Info Solution has since then established a name for itself in India.

Z Info Solution is a fast growing Technology Corporation based in New Delhi offering a broad range of on-premise and cloud based solutions with a strong base in healthcare domain. Our pristine offering is “Hospisys” (A Complete ERP Solution for Medical College & Hospitals) with leading Premier Institutions as old as ones started in 80s as its clients.

We live by our Motto “Where Trust Matters” and our clients would not think twice before testifying to it.

OUR APPROACH

DILIGENT

We take an extensive look at current processes, software used, talk to stakeholders to understand the requirement in depth

COST EFFICIENT

We provide human-less data driven automations that have saved millions for our clients, for processes none of our competitors could build an automated solution for.

ACCURATE

We pinpoint the problem statement, identify process gaps and build a comprehensive outline to solve critical issues.

PROFESSIONAL

We deal professionally but work with our heart and soul. The founders are involved in each new project in and out until a smooth onboarding is done.

ABOUT HOSPISYS

An End-to-End Product developed from ground-up to fulfil requirements of each stakeholder in a Hospital or Medical College. It is a web-based application that can be hosted on premise or on cloud, depending on client need.

The system provides real-time information to Admin, Staff, Doctors & Patients. It Consists of fully independent modules with comprehensive handshake for data accuracy, All the modules have been carefully designed to increase efficiency of each department and provide transparent visibility to the Management Team
